

# Striking a Unique Note

## An Instrumental Part of Your Business

Although an unelaborate instrument comprised of a shell filled with seeds or dried beans, the maracas are present in many forms of music. The sound is distinctive and varied, which may account for their frequent inclusion in orchestras. In a similar way, SKYREACH views its customers as valued partners. From design to delivery, SKYREACH accommodates businesses as they grow. Now that's sound judgment.

With two SKYREACH locations in Vaughan, Ontario, plants in Los Angeles and Chicago, along with additional offshore capacity, SKYREACH is well equipped for the production of standard open die or custom profile window systems. Additional plants scheduled to open in New York, and Dallas reinforce the SKYREACH commitment to meet your fabrication demands.

**SKYREACH introduces some new additions to its product line.** Learn more about the Genesis and Harmony Patio Doors and the SGI-005 Heritage Window Series. Offer style and durability with SKYREACH as your progressive and evolving partner. Call 1-866-903-8800 for more information or visit:
